

## NEW SCHEDULE IS IN EFFECT TODAY

The new schedule of the Tonopah and Goldfield railroad goes into effect this morning. If you are going out this morning, look at the schedule, which appears in another column, and then you will not have to get up so early in the morning, provided that you are not already up when this strikes your eye. There have been a number of changes, all of which gives Tonopah more time to catch the trains. Cut out the schedule and stick it in your hat.

## HAVE OFFICES IN GOLDFIELD

Campbell, Metson and Brown of San Francisco and Tonopah, have opened offices in Goldfield, taking rooms Nos. 1 and 2 in the Nixon block. George S. Green accompanied J. C. Campbell, head of the firm, to Goldfield yesterday morning. Mr. Green is a member of the firm here, and he and C. B. Gillespie, another member, will have charge of the Goldfield office, which has had no representative in the neighboring city since the withdrawal of Augustus Tilden from the firm. Mr. Green is well known in Goldfield, having been formerly district attorney of Esmeralda county.

## PERSONAL MENTION

Attorney Walter D. Cole left last night for a short trip to San Francisco.

Miss Jennie Yermouth of Butte, Mont., is visiting Mrs. C. W. Pape of Tonopah.

Judge J. P. O'Brien paid a visit to Goldfield yesterday, but returned last evening.

Senator T. L. Oddie went out to his ranch near Belmont yesterday and will be back tomorrow.

Er E. Knapp left for Blair yesterday morning to inspect some property in the Silver Peak district.

Mrs. J. H. Morris, who has been ill for some time with typhoid fever, is well along on the road to recovery.

W. W. Stockton, a well known mining man, who is "in" in the new strike in Regent, arrived in the city yesterday.

Frank Golden arrived yesterday morning from Reno, and will be in this section of the country for the next two weeks.

Attorney F. X. Murphy, who was stricken with rheumatism some days ago, is still confined to his rooms with the ailment.

Mrs. Will Grimes and children returned yesterday from Nevada City, Cal., where they have been visiting for the past month.

Miss Bessie Beatty, the charming young authoress, who is writing up Nevada, was among the arrivals on the Reno train yesterday.

Kirk L. Simpson, the well known newspaper man, left on last night's train for San Francisco, and will be away for about two weeks.

Paul Tarpey, of the well known machinery firm of Tarpey Brothers of this city, will leave this evening for Salt Lake on a short business trip.

Superintendent J. F. Hedden of the Tonopah and Goldfield railroad went over to Goldfield in his private car, Mizpah, yesterday, taking with him as his guest Hon. J. C. Campbell, head of the firm of Campbell, Metson and Brown.

L. L. Blumenthal, accompanied by Mrs. Blumenthal, left on last night's train for Portland, Oregon, where Mrs. Blumenthal will remain for several months. Mr. Blumenthal will return to Tonopah in about a week.

Mr. and Mrs. H. H. Hunter left for Reno yesterday morning. They were accompanied by their son, Thomas, and their daughter, Clara, who are going to attend the university at Reno. Mr. Hunter will continue to the oil fields of southern Utah, where he has some interests.

Jim Butler arrived from his ranch in California yesterday, and took a spin to the Klondyke country, where he has some fine showings on his claims. He is more confident than ever that there is going to be a great big camp in that district, and he says that the latter is going to be another tributary of Tonopah.

## UBEHEBE HAS GREAT SHOWING

ROUND MOUNTAIN "SCOTTY" ASTONISHED AT WHAT HE BEHELD.

C. R. Scott, known far and near as Round Mountain "Scotty," is the latest mining man to yield tribute to the wonders of Ubehebe. Mr. Scott, accompanied by his wife; also A. H. Deahl of Manhattan and C. Lonkey of California, have just returned from Ubehebe. The party spent two days going over the holdings of Jack Salsbery in the famous camp and they were astonished at the showings that they beheld.

"It is the first camp that I have ever visited," said Mr. Scott, "where I saw more than was promised me. I had heard a great deal of the camp, but I must confess that although prepared to see something good, I could not credit what they have there without actually seeing it. To thoroughly appreciate what they have in Ubehebe, one has got to see it.

"The first impression that a man gets of the country is that if there is anything there, it is going to be easy work getting it out, for the lay of the country is all in favor of mining. The mountains are high and they come down sharp into the valley. A second glance is all that is necessary to show you that they have got something in the mountains, for the contact is very distinct. The formation is in lime and granite. The ledges are true copper rock. There is garnet, which give way to iron gossion under the surface, and in places the gossion comes right to the surface. There are big ledges there, which anyone can see, and they must be seen to be appreciated.

"We spent the better part of two days going over the mountains on burros. The trail over the mountains is the finest in the United States. One gets a wonderful view from the top of the mountain and it is one camp where a man can go and see the location work done on the ledges. On every claim where there has been any work done at all the copper is showing. I stood on one hill, and I could see at least a hundred different openings, trenchings, samplings and tunnels.

"I saw five separate ledges, and there are a number of stringers besides, running into the main ledges. Some of the rock shows free gold, but I didn't take any samples or assays of this. I made my own assays of the copper, however, and much of it ran very high. Of course the percentage was different in different places, but one shoot that I assayed ran 35 per cent for twenty feet.

"Most of the development work there has been done by tunnels, and they can find a tunnel site on a ledge almost any place. The mountain is 2000 feet high, and you see the outcropping and can trace it right down the hill. This would give the ledge a depth of 2000 feet, vertically, and there would be more than that in backs.

"One ledge I saw will go from ten to forty feet wide. It would have been forty feet in width all over but for the water coming down through the canyon and wearing away the granite, and in some places it has worn away the ledge. In some places the ledge crops twenty feet above where you will be standing. This appearance is caused by the water and the debris coming down the canyon and washing away the granite, and leaving the ledge standing against the lime.

"There are all the indications that the property will get better with depth. The ledges are well defined and you get copper wherever you go. Anybody, whether he knows much or little about mining, can go there and see for himself the possibilities of the country and he can't comprehend it all without seeing the camp.

"As far as a railroad is concerned, it is the greatest country in the world to build one. There is only one summit to cross, and for the rest of the proposed road it is only a matter of putting down the ties and laying the rails. The hospitality of the Ubehebe is another thing to marvel at. There are a lot of young mining engineers, and they are all very enthusiastic over the country. There was not one of them to whom I talked, who didn't want to get all the stock he could in the company, and after my experience I do not wonder at it. Ubehebe has certainly one of the greatest showings that I ever saw, and its possibilities simply amaze one when he stops to contemplate them."

It is a well known fact that persons living in the Pine forests do not suffer from kidney diseases. One dose of Pineules at night usually relieves backache. 30 days' treatment \$1.00. Your money refunded if not satisfied. Sold by Tonopah Drug Co.

## FISTIC CARNIVAL MONDAY NIGHT

THE GOLDFIELD ATHLETIC CLUB WILL PULL OFF BOUT FOR HUMORISTS.

The main fistic event of the boxing card at the Hippodrome theater Monday night under the auspices of the Goldfield Athletic club, will be a ten-round go between Jim Konkey of Milwaukee and Jack Evans of Oakland and judging from the opinions of the critics who have seen both men in action at their training quarters for the past few days, it promises to be one of the liveliest mills ever pulled off in Goldfield.

Matchmaker Fleschman was very fortunate in selecting two men so evenly matched and while both combatants have an altogether different style of fighting, they both seem to be well versed in the scientific points of the game and no one even dare to select a favorite.

Evans represents the fancy style of a boxer, as his bag-punching is par excellence in every respect. Although he is an easy boxer, he has a deceiving right which at any time might land the slumberland punch.

Jim Konkey is built on the order of Fitzsimmons with slender legs, powerful shoulders and extraordinary long reach. The Milwaukee boy's wind is unexhaustable and combined with his power of endurance, he is surely a worthy antagonist for his more clever exponent.

In addition to the main bout, the affair between Joe Germain and Ed McMiller is attracting considerable attention from the local followers of the fistic game. Germain is doing his training stunts with Jim Konkey and no other man ever worked harder before a fight than the Monte Carlo Kid. Ed McMiller is doing his training in private and despite all the spying proclivities of Germain's friends, they have been unable to get a line on McMiller. McMiller is a waiter in one of the local restaurants and all of his fellow hashers have staked their all on his chances to get the better of the argument with Fleschman's protegee.

Kid Sharkey and Kid Mack are both working hard and it is even money on these two clever mitt artists.

Although the three limited bouts will surely please the Press Humorists of America, the battle royal between five dusky darkies will be an event that will make them remember Goldfield.

All of the members of the Goldfield Athletic club, the American Humorists of America and the members of the press club will be admitted free of charge, and to all others the price of admission will be \$1, \$2, and \$3.

## POPE TO WRITE OWN OPINIONS

ROME, Sept. 21.—The pope will continue the movement he has just started against Catholic writers who depart from the teachings of the church in their publications, even if they cannot be called exactly heretical. Since the syllabus was published there have been many comments in the French press severely criticizing the document as old-fashioned.

The congregation of the index, which has charge of the issuance of the document, promptly followed it up with the condemnation of several French books of recent date. Then it was announced that the next decree of the congregation would attack exclusively German works, but so far this has not been issued. It is now certain that within the next few days the pope himself will issue an encyclical letter to all the bishops of the world, detailing the reasons that led him to publish the new syllabus, and why Catholic writers must conform to it.

The document will be even more important, from a dogmatic point of view, than the syllabus, because it will give the direct opinions of the pope in the matter, and as such will have a bearing on the question of the papal infallibility.

There is much general interest here as to what the pope will say. The encyclical letter will be issued in about two weeks.

## CROWD HISSES CLARENCE DARROW

SPOKANE, Wash., Sept. 21.—Clarence Darrow of Chicago, senior counsel for the defense in the Moyer-Haywood-Pettibone cases, was roundly hissed during a concert in the Silver grill last night when he refused to rise to his feet while the national anthem, "America," was being played by the orchestra. Darrow's party included Mrs. Darrow, Fred Miller, counsel for the American Federation of Miners; Judge Edwin McBee and wife, Major Fred R. Reed, candidate for congress from Idaho; Miss S. Belle Chamberlain, superintendent of public instruction in Idaho; James Stevenson, state engineer of Idaho; Miss T. Carrie Gusterson, Mr. and Mrs. M. McClarnon and Mr. and Mrs. J. Robinson. They arose and joined in the singing.

Shouts of "Be an American citizen," "Stand up," "Show your respect for your country," were intermingled with hisses from more than 300 men and women when it was observed that Darrow remained in his chair, calmly sipping from a glass of ale, but the Chicagoan did not move. At the close of the anthem he declared in a voice, which could be heard in all parts of the hall:

"I don't know that it is any one's business whether I stand or remain seated during the rendition of the national anthem. It is my own business. If I choose to remain seated that, too, is my business."

Judge McBee afterward said that Darrow was fatigued, and on that account he did not rise to his feet with the others during the playing and singing of "America."

## MUSTAIN WILL WRESTLE MURPHY

Terry Mustain, who was recently vanquished by Young Peter Jackson, will tonight wrestle Billy Murphy of Yerington, for a purse of \$100. The match will take place at the Casino at 10 o'clock and will be an interlude to the regular show. The match will be catch-as-catch-can, best two out of three falls. Murphy is not very well known here, but seems to be a favorite with the miners of Yerington. Terry Mustain is no slouch at the game, having had a pretty good record on the mat in the past. He will take on all comers during the week, and will give \$100 to anybody whom he fails to throw.

## FREED ON BAIL.

PHILADELPHIA, Sept. 21.—Warrants reached this city late this afternoon from Harrisburg for the arrest of George F. Payne, builder of the State capitol; Charles G. Wetter, his partner, and Stanford Lewis, an associate of Architect Huston, who planned the capitol. Counsel for Payne and Wetter waived hearings and bail was fixed for Payne at \$10,000 and for Wetter at \$9000. Counsel for Lewis accepted service in his behalf and furnished \$4000 bail for his client's appearance in court. Payne is said to be ill at Mount Clemens, Mich.
